Doug or Debbie - can either of you touch base with Dave today. I will be in meetings this afternoon. I think it would be good to have EPA there for a briefing but not essential if we can get a good summary presentation from Skeo?

I don't think its a "closed door" meeting, its just more of a members meeting to review all the relevant issues that said I don't think we can have a very large meeting due to lack of space and other considerations but Doug can expound more on this with you by phone perhaps?

thanks
Ana

Doug/Debbie/Ana:

Let's talk relatively quickly on this. By members only do you mean members only discussion? Or closed door (closed to the public)? EPA cannot attend closed door CAG meetings.

I am in a meeting until 10:30, then available until 2:00 today.

Subject: Passaic River CAG Members Meeting on May 1

Hi all,

The CAG will be holding its first meeting on the FFS and Proposed Plan for the Lower 8 miles on May 1. Location TBD.

The purpose of this meeting will be to have an initial discussion on the documents as a CAG. This will be a members-only meeting because it will come ahead of the first public workshop on May 7 and we do not want to turn this into a defacto workshop on the FFS. We will not be able to obtain a large meeting space on that date and do not want to undermine the public process of EPA beginning on the 7th. In addition, the CAG needs some time to digest the information, ask questions, and identify its activities and information needs in moving forward on a group recommendation. The CAG will also discuss its meeting schedule and activities during the public process.

Ana and Debbie will be reaching out to all members over the next week, but feel free to contact any of us for more information.

thanks

Doug
